

## *I Am and I Am Not*

I am a meat eating vegetarian      I am a book burning librarian  
I am a civilized barbarian      a misanthropical humanitarian  
Eating an empty bowl of cherries and      swimming in a dry aquarium  
I reach my long lost destination and then  
Quickly get back on the bus again  
I am      and I am not      what I thought

I am a violent pacifist      I am a government supporting anarchist  
I am a red commie capitalist      stone cold sober and always pissed  
I am an open fist      butt ugly but so well kissed  
A rebellious conformist      Chubby Checker without a twist  
I am and I am not      what I thought

I am Sam I am      choking      on my own green eggs and ham

I am an expired infinity      I am a whored virginity  
I am a blasphemous divinity      4/5 of a trinity  
I am repellent affinity      standing sit-and-spinity  
Cloaked in clever dim wittity      I'm stalled in my transitivity  
I am      and I am not      what I thought

That I bought      when I caught      that little bouncing white dot  
What I fought      what I got      getting hot      just a jot  
On my cot      cast a lot      for the Mott's      but not      what I ought  
You know the pot      of kumquats      that would rot      like a sot  
That was shot      off the teeter tot      wot?      What what what?

I am      and I am not      I am an I am not....
